

Continuing Education for MIH-CP Programs

Developing skills, mastery, methods

Dan Swayze DrPH, MBA, MEMS
Center for Emergency Medicine of Western Pennsylvania

Your age (to the closest decade)	Your number
20	3063
30	2541
40	2020
50	1499
60	977
70	456

What skills do they need?
What level of mastery?
What methods do we use
to teach and assess?

Cognitive	Affective	Psychomotor
Create Evaluate Analyze Apply Understand Remember	Value Organize Appreciate Respond Receive	Crafts Adapts Performs Mirrors Prepares Perceives

CP Core Competencies

What do they need to

- Know
- Do
- Value

to function?

Cognitive

Patient Assessment

Triage

Systems of Care

**Assessment
(Cognitive)**

- C Clinical
- P Psychological
- M Meals
- E Environment
- R Records
- I Income
- T Transportation
- S Social support

**Triage
(cognitive)**

Ideal

Sustainable

Unsustainable

Immediate

**Systems of Care
(cognitive)**

Structure

Culture

Craft

Psychomotor

Obtaining samples

New devices

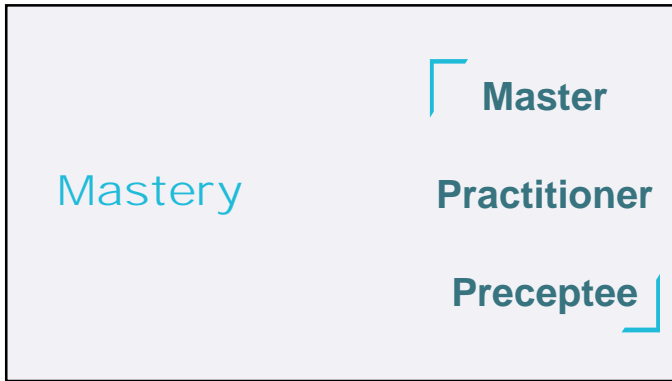

Affective

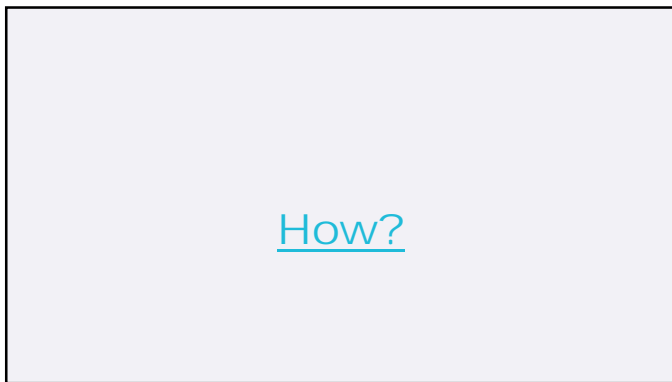

Rapport

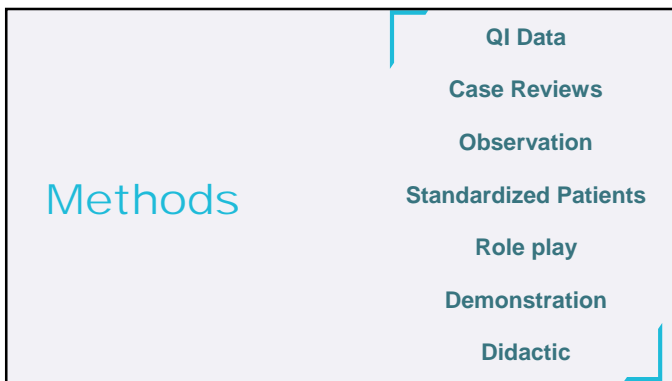

Professional Boundaries

Compassion Fatigue

How much time?

Where to start?

Walt's wisdom

If you were told to lay off half your CP workforce Who would you fire?

- Why them?
 - documentation
 - communication skills
 - lack of follow up

Walt's wisdom

Use their shortcomings to determine your con-ed.
