Unity Point-Peoria and EPSS are seeking an EMS Physician to join their organizations. This person will be in charge of management and development of an EMS system that currently includes ten local agencies. Additionally, this person will be responsible for collaboration with medical directors of Unity Point Hospitals located in the Peoria area and work with support staff to organize and develop EMS policies and protocols.

Position Details:
- Candidate will direct the EMS services of Unity Point Hospitals in the Peoria area
- Approve/Review standard medical orders and revise, as needed
- Set the metrics for continuous quality improvement of the EMS system relative to national and regional benchmarks and design the strategy for achieving quality goals
- Approve educational materials for competency evaluations and credentialing
- Serve as the medical director for an accredited paramedic training program
- Provide online medical control for prehospital providers via Twiage
- Ensure agency documentation and licensing compliance with the Illinois EMS Act and any directives from IDPH
- Collaborate with UnityPoint disaster management teams on disaster drills and emergency department disaster preparedness
- Collaborate with other Region 2 EMS Medical Directors through the Region 2 EMS Advisory Committee on the development of regional protocols and to address any intersystem conflicts that may arise
- Participate in the ICEP EMS Committee and with the Illinois Chapter of NAEMSP

Clinical Responsibilities:
- Community Hospital Clinical responsibilities at Unity Point-Peoria Proctor and Unity-Point Pekin hospitals
- Pay competitive, independent contractor status, clinical hours negotiable, flexible scheduling
- Unity Point-Peoria Proctor: Annual ED volume 19,000 patients per year
- Unity Point-Pekin: Annual ED volume 25,000 patients per year

Qualifications:
- ABMS BC/BE in Emergency Medical Services is desirable but will consider candidates with extensive background in EMS with BC/BE in Emergency Medicine.
