

NAEMSP®

## 2019 Pre-Conference Workshops

---

### Advanced Topics in Medical Direction™

Wednesday, January 9  
8:00 a.m. – 5:00 p.m.

This unique one-day workshop is designed for practicing EMS Medical Directors and others who engage in clinical supervision of functioning emergency medical dispatchers, emergency medical technicians and paramedics.

While not required, previous completion of the NAEMSP® National EMS Medical Directors Course & Practicum® is recommended.

---

### Advanced Topics in Mobile Integrated Health/Community Paramedicine (MIH/CP)

Tuesday, January 8  
8:00 a.m. – Noon

The purpose of this workshop is to provide a discussion forum for advanced topics in the development and sustainability of community paramedicine/mobile integrated healthcare programs, including: measurement of cost savings and clinical outcomes, overcoming regulatory hurdles, understanding and mitigating liability concerns, setting educational requirements and competency assessments, managing documentation and data exchange and developing relationships with community-based resources.

---

### EMS Faculty Development: Leadership Skills

Tuesday, January 8  
1:00 p.m. – 5:00 p.m.

We all have leadership roles in EMS, but very few of us have had formal training in how to lead, how to develop junior leaders, and how to be mentors. Join us to learn key leadership skills and performance pearls. Map out your leadership development plan with input from our EMS faculty!

---

### Operational Canine: Point of Injury Medical Care for EMS Medical Directors

Tuesday, January 8  
8:00 a.m. – 5:00 p.m.

This workshop will provide education to EMS medical directors in the treatment of immediate, life-threatening illness and injuries that may occur to operational canines.

---

### Quality and Performance Improvement

Monday-Tuesday, January 7-8  
8:00 a.m. – 5:00 p.m.

[Visit our website](#) for more information about the two-day preconference workshop and to learn more about the year-long, in-depth course that will build on the concepts and skills highlighted in this preconference. (See Quick Access from side bar menu).

---

### Optimal Pediatric Care: Making It Happen in Your System

Wednesday, January 9  
8:00 a.m. – noon.

With recent changes in the EMSC performance measures for agencies and the release of position statements advocating for physician oversight of EMS pediatric care, this workshop will provide medical directors with best practices and strategies for optimizing pediatric care within their systems. Presenters will provide an introduction to physician oversight of pediatric care in EMS.

---

### Out-of-Hospital Critical Procedure Cadaver Lab & Airway Workshop

Wednesday, January 9 – 8:00 a.m. – Noon

This workshop will offer a unique combination of the exceptional anatomic and procedural process of the cadaver lab with the airway lab. Here, several different types of video laryngoscopy devices and supraglottic airways will be integrated and demonstrated using the cadavers.

---

### Out-of-Hospital Critical Procedure Cadaver Lab

Wednesday, January 9 – 1:00 – 5:00 p.m.

The purpose of this workshop is to provide a unique opportunity to review relevant anatomy associated with critical care and lifesaving emergency procedures. Participants will enhance their understanding of the various procedures and the associated risks and benefits through the hands-on practicum. The relevant review of the anatomy will include airway, chest cavity and vascular access landmarks. Key opinion leaders, nationally known EMS medical directors, and emergency medical services providers serve as faculty for this program.

---

**Register early for these preconference workshops.**

**Seating is limited!**
