

Good Day:

Hope this finds everyone rested from watching the moon disappear.

I wanted to update the Board and Special Project Leads on some communication items.
(buckle up as some of this is techy stuff)

I have updated our WordPress site - Our (free) blog for those not on social media -
www.ncnaemsp.wordpress.com

In my tinkering - posts to the website are now linked to our social media presence on Facebook
([facebook.com/NCNAEMSP](https://www.facebook.com/NCNAEMSP)) and Twitter. (@NCNAEMSP)

I established a mailchimp.com account to help manage our outbound email and contact management.

With our number of members and the limited number of notices we send, we qualify for a free account.

This system will send bulk emails to our "List" of members as well as provide a means for members to "Opt Out" or "Update" contact information.

As well, we can establish a list of "other" interested parties that want to be kept apprised of our events, meetings etc.

This is not a "listserver" where you have one email address to blasts out an email to the members.

This is a sample landing page to get added to our email list:

[SAMPLE EMAIL LIST LANDING PAGE](#)

We may want to explore with National access to their system or with permission from one of the universities, establish a list in kind.

Future discussion.

This weekend I have established a NCNAEMSP channel on YouTube for a unified video posting site for Ketamine 101, Medical Directors Boot Camp items and more.

There is no content except for a test file up there today.

<https://m.youtube.com/channel/UCslp2IdiDfO3LeCfKwG4u-A>

To keep it simple if you will send items you want to be posted to me by link and not as an attachment due to file size.

There are a couple of ways to move large files:

If you have a dropbox, onedrive or google drive you can share a link to the file in an email to ncnaemsp@gmail.com

If the size of the file is greater than what you can store and link - drop me an email and I will provide you with other ways to get the material to me.

For Special Project Leads:

I have established cloud web storage "folders" for your project on our Google Drive.

Each Project will have a folder - you can use the link I will provide by email to upload meeting minutes, an email list of committee members etc.

I would ask that you include our email ncnaemsp@gmail.com on any correspondence to your group so I can collect your progress as well as assist if you have problems.

If you have a Gmail account - please send me that. I can assign your Gmail account rights to your project folder.

Look for an email with links to your folder later this week - PLEASE DO NOT SHARE THESE LINKS as they have full upload, edit and delete rights assigned. You don't need a Gmail account to use the link.

Feel free to drop me a note for other options.

Also, for your meetings, if you want access to a web-conference or dial-in phone conference line for up to 200 let me know.

We are using the conference line system with recording to capture our meetings to a downloadable mp4 (podcast) file.

Attached are the minutes (Thank you Bobby!!) from January's meeting .and the notice on EMS at the General Assembly in February.

Let me know if you have questions.

Joseph
