

# EMS Fellowship Guide

---

## 2023

National Association of EMS Medical Directors

Council of EMS Fellowship Directors

Powered by:

EMS  
DIVISION OF EMS MEDICINE

Thank you for using the EMS Fellowship Guide. It is our hope that this guide will help to objectively inform your search for a best-fit fellowship. All information in this guide was provided by the leadership of the respective fellowships and accuracy should be verified with that leadership. While we did our very best to contact all programs, we did not receive information from all programs for this year's guide. We will continue to revise, expand, and improve upon this guide in the future. Feedback is always welcome.

Best of luck in your fellowship search!

ALBANY MEDICAL COLLEGE

## Basic Information

### Program Director

Michael Dailey, MD

### Assistant/Associate Program Director

Heidi Cordi, MD

### Address

Albany Medical Center, 43 New Scotland Avenue, Albany, New York 12054 Northeast

### Region

### Extra year available?

Optional

### ACGME Accredited

Yes

### Year of ACGME Accreditation

2016

### Match Participation

Yes

### Percentage of ACGME years with enrolled fellow?

50

### Program Description

It is my pleasure to welcome you to the EMS Fellowship at Albany Med. The Capitol District of New York offers nearly every type of EMS experience. The fellow has an opportunity to pursue their own area of interests while completing the ACGME curriculum. We have an active field response program in concert with the county sheriff and also respond with federal, state and municipal assets for tactical and operational support. We look forward to meeting you.

## Fellow Details

### Base Salary Before Any Moonlighting

\$60,000 - \$80,000

### Average Salary Including Any Moonlighting

\$80,000 - \$100,000

### Weekly Required ED Hours for Base Salary

Less than 10 hours

### Annual Vacation Time

3-4 weeks

### ACGME Fellow Board Exam Pass Rate

34%-66%

### ACGME Fellows Practicing as EMS Medical Directors

100%

### Program Description

The Denver Health fellowship in EMS and Disaster is a one year ACGME accredited fellowship affiliated with Denver Health Medical Center and the Denver Health Paramedic Division (DHPD). DHPD is a hospital based third service system that provides 911 medical response for the city and county of Denver, Colorado. Our system is one of the busiest in the country with 200 medics running over 100,000 calls and transporting over 80,000 patients per year.

### Program Description

The fellowship mission is to cultivate clinically and administratively successful Emergency Medical Services Physicians who are leaders in providing compassionate, collaborative and exceptional out-of-hospital patient care. The program primarily serves the Philadelphia region and its residents, though fellowship graduates will be well prepared to serve urban, suburban or rural communities nationwide.

### Program Description

Founded in 1995, the EMS Fellowship combines clinical, administrative, and field experience in both urban and suburban EMS environments. Our fellows take an active, hands-on role in Hennepin EMS, as well as a suburban fire department EMS service. Fellows practice in Hennepin Healthcare's state-of-the-art Level I Adult and Pediatric Trauma Center. Our fellows gain specialized experience in mass gathering/event medicine, USAR, disaster preparedness as well as field care and tactical EMS.

**Program Description**

As Indiana's only EMS Fellowship program, IU's EMS Fellows complete extensive and comprehensive training for their future careers as EMS medical directors. The Fellows work closely with Indianapolis EMS and the Indianapolis Fire Department, both of which are busy urban agencies that respond to well over 100,000 incidents a year. Additional opportunities include critical care transport/aeromedical medicine with IU Health Lifeline, event medicine, tactical medicine and community paramedicine.

### Program Description

The McGovern Medical School at UTHealth - Houston EMS Fellowship is based in Houston. Fellows have the opportunity to work as Assistant Medical Director to the Houston Fire Department (HFD), a large, urban, fire-based EMS agency that runs over 340,000 calls per year. Fellows are provided with a take-home HFD response vehicle. Fellows also have the opportunity to work with Memorial Hermann Life Flight, other suburban EMS agencies, and a dedicated cadre of knowledgeable and passionate faculty.

### Program Description

The Jacobs School hosts an Emergency Medicine residency program with a very active EMS division. Buffalo, NY is the center of a large regional EMS system for the surrounding Western region of New York State. Our area is serviced by a wide variety of EMS systems and experiences such as municipal, private, police and volunteer EMS agencies. We provide medical direction at all levels of EMS serving this area, providing a complete EMS experience in order to gain proficiency in EMS medicine.

### Program Description

Arizona Emergency Medicine has been a leader in EMS internationally, nationally and at the local and state level for over 30 years. The physicians of the Department of Emergency Medicine have received international recognition for their EMS research and clinical activities. Through our work in Southern Arizona, EMS fellows have the opportunity to learn by working side by side with EMS physicians, nurses and paramedics engaged with multiple outstanding local EMS agencies.

### Program Description

University Of Cincinnati's Department Of Emergency Medicine's Division of EMS has hosted a Fellowship in Emergency Medical Services Medicine since 1996. In 2013, the Fellowship was one of the initial programs in the country to receive full accreditation by the ACGME in the first year it was offered. The fellowship supports three Fellows yearly, with applications accepted on a rolling basis, but interviews generally held in the Fall.

### Program Description

The UF EMS Fellowship has been ACGME-accredited and trained 2 fellows per year for as long as ACGME accreditation has been possible. Our fellows act as assistant medical directors for Alachua County Fire Rescue (ACFR), the primary transport agency for 250,000 people over 969 square miles. Fellows also assist in other ground and flight agencies across the state, and as assistant medical directors for UF Football home games.

## **PARTING WORDS**

This fellowship attracts applicants who desire a robust yet flexible offering of prehospital experiences supported by the #1 NIH funded emergency department in the country and housed within a world class university. The backdrop is a culturally diverse small town with vast outdoor recreational opportunities, varied culinary offerings, and outstanding public schools. Our Core faculty include the rank of Clinical Instructor. Our EMS Faculty also provide medical direction for both TEMS and Dive Team.

## PARTING WORDS

Located in the state's largest metro, but serving a very rural state, our fellows care for a diverse group of patients with severe disease processes in challenging settings. Four separate HEMS bases cover the state and offer plenty of flight time. Our new EMS Physician vehicle will be ready for use by the 2023 fellows. The University offers a two year Master of Science in Clinical Investigation and we would consider supporting qualified candidates who wish to pursue this simultaneously.

### Program Description

The EMS fellowship with UW and the Seattle Fire and King County Medic One program is designed to immerse fellows in all aspects of ground and air EMS medicine. EMS within Seattle and King County serves a population base of 2 million people. Through a variety of experiences on the front line of care and operations, the fellow will gain extensive experience with fire and third service based EMS medicine, coordination of air medical services, interagency communications, research and administration.

## **PARTING WORDS**

As the Medic One system in Seattle and King County is supported by a levy, no bills are sent for ALS care. This tight integration between the community and EMS provides tremendous advantages. Airlift Northwest also covers an astonishingly huge area. In the role of flight physician, you will retrieve patients from the smallest clinics in Alaska, single coverage EDs throughout the northwest, scene calls from mountain tops to ocean accidents and transfers from ICUs at facilities near and far.

### Program Description

ECU offers a one-year ACGME accredited program that covers the core content of EMS. This is accomplished by formal didactics, mentorship, simulation training and hands-on experience. The fellow will be exposed to both urban and rural setting within different types of EMS systems, such as Non-Emergency transport agencies, Fire-Based model, and Third Service model. Will also have experience with EastCare, our critical care transport service that includes ICU trucks and Critical Care Air transport.

#### Program Description

Our EMS Fellowship prepares emergency physicians in all aspects of out-of-hospital care and graduates leave the program with the knowledge and skillset required to practice as an independent EMS physician. VCU faculty serve as medical directors for EMS agencies in Richmond and its surrounding counties as well as three air medical helicopters, creating robust, comprehensive training opportunities for fellows. Fellows also gain experience in community paramedicine, tactical EMS and event medicine

### Program Description

We have a very comprehensive program that offers a little of everything. Urban and rural ground EMS covering over 500 sq. mi. with a regional RSI program; in-house neo-peds interfacility transport team; a robust ground and air transport program. Mass Gathering stadium coverage at VT football games, Blue Ridge Marathon, and Iron Man in 2021. EMS education at the local EMS programs. We try to tailor the program to your interest. Last but not least, one of the prettiest areas to live and work in.

### Program Description

In our fully accredited, 1-year EMS Fellowship Program, fellows serve as an assistant medical director for the Kalamazoo County EMS system, as well as a junior faculty member of the institution's Emergency Medicine Residency Program. Fellows gain extensive experience in general and special (mass gathering, hazmat, tactical, wilderness) operations, administration, medical oversight and education through multiple partnerships including Yellowstone and a take-home response vehicle.

### Program Description

MMC is partnered with Portland Fire Department (the busiest 911 service in Maine) and LifeFlight of Maine (Maine's only helicopter critical care transport service) to provide a robust and exciting clinical experience for trainees. EMS Faculty work at all levels of EMS, allowing fellows insight into local medical direction, regional medical direction, statewide medical direction, and even work with national specialty services. MMC is the only EMS Fellowship program in Northern New England.
