the potential needs of a major incident. The National Association of EMS Physicians (NAEMSP) is a recently-developed organization which provides a network for physicians who are legally responsible for prehospital medical care delivery and includes most of the designated medical directors for most major municipalities within the United States. The majority of these EMS physicians are familiar with the unique problems and logistics of the prehospital environment as well as the operational activities of the local civil authorities. Many regularly interact

COVID-19 Pandemic: The Role of EMS Physicians in a Community Response Effort

José G. Cabañas , Jefferson G. Williams , John M. Gallagher & Jane H. Brice

37

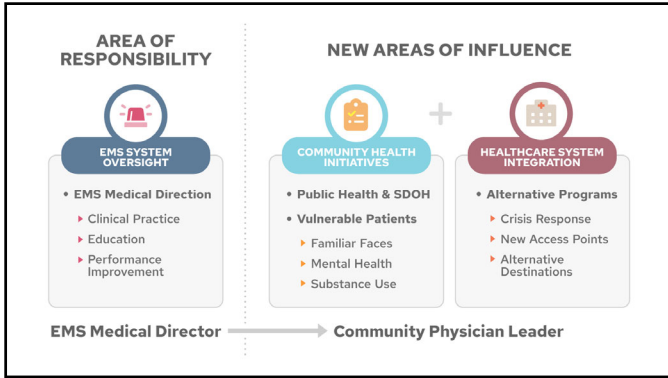

Many communities in the US are experiencing an unprecedented crisis due to lack of mental health and social support services for patients in crisis

38

EMS Physicians **MUST** be ready to lead and look for opportunities to influence change in the community's healthcare system

What this means in the future?

EMS Medical Directors & Clinical Teams

- EMS Physicians will have to learn new dimensions of care

The future EMS Physicians will see:

- Increased need for diverse service delivery systems
- Train EMS Clinicians in expanded non-emergency roles
- Greater demands on YOU as a Physician Leader & System Thinker!
- Build relationships with other community partners
