

# EMS Fellowship Guide

---

## 2024

National Association of EMS Medical Directors

Council of EMS Fellowship Directors

Powered by:

Thank you for using the EMS Fellowship Guide. It is our hope that this guide will help to objectively inform your search for a best-fit fellowship. All information in this guide was provided by the leadership of the respective fellowships and accuracy should be verified with that leadership. While we did our very best to contact all programs, we did not receive information from all programs for this year's guide. We will continue to revise, expand, and improve upon this guide in the future. Feedback is always welcome.

Best of luck in your fellowship search!

## PARTING WORDS

Pittsburgh is a very family-friendly city with a reasonable cost of living with many of the amenities of a larger city without the associated cost or other issues of living in a large urban area.

AHN provides medical command for nearly 100 EMS agencies across Western Pennsylvania and has a strong tradition of working very closely with our community partners to provide the the highest quality patient care possible through regular educational offerings and active medical director involvement.

### Program Description

The Denver Health fellowship in EMS and Disaster is a one year ACGME accredited fellowship affiliated with Denver Health Medical Center and the Denver Health Paramedic Division (DHPD). DHPD is a hospital based third service system that provides 911 medical response for the city and county of Denver, Colorado. Our system is one of the busiest in the country with 200 medics running over 100,000 calls and transporting over 80,000 patients per year.

### Program Description

This is a dynamic time in Detroit - the city is transforming. Resources include the City of Detroit, Detroit East Medical Control Authority, State of Michigan EMS Committees, Wayne County Sheriff, Michigan College of Emergency Physicians and all WSU SOM EM departmental resources. EMS has grown substantially. There are dozens of new units, fire first responders for the first time in history, and the city has adopted state of the art call-taking and Emergency Medical Dispatch.

### Program Description

Fellows are involved with both professional and volunteer EMS organizations, in addition to an air ambulance program and a critical care pediatric transport program. Our fellows also have opportunities to work with Federal agencies including Urban Search and Rescue Teams, and have extensive training opportunities with local Special Weapons and Tactics (SWAT) teams. The faculty has many years of EMS experience, and participate in weekly didactics and extensive "boots on the ground" training.

## PARTING WORDS

EMS is about service to the community. As EMS physicians we serve our community through our education and guidance of our public safety professionals. We are extremely fortunate to have a talented and diverse group of EMS and public safety providers to help navigate the challenges of prehospital care. We have an additional APD, Jeremiah Escajeda, MD along with 3 of our faculty are now board eligible.

### Program Description

St. Luke's EMS Fellowship accepts two fellows per year. Training will occur in a multitude of different EMS frameworks, including hospital-based, fire service, municipal and private 3rd service, and hospital-owned flight service. There will be opportunities to work with residents and medical students both in the ED and on their EMS rotation. A Physician Response Vehicle, providing blood and advanced capabilities, will be provided for fellows to respond to calls with multiple partner agencies.

### Program Description

The UCSD EMS Fellowship is designed to provide emergency medicine physicians the opportunity to be educated and trained in the administrative, medical oversight and field aspects of EMS systems. Highlights of the program include partnering with agencies including the City of San Diego Fire Rescue Department, San Diego County EMS Office, County, Imperial County's EMS Agency, Mercy Air, Falck, and AMR. Additionally, interested fellows are exposed to global EMS and disaster response.

## Fellow Details

### Program Description

University Of Cincinnati's Department Of Emergency Medicine's Division of EMS has hosted a Fellowship in Emergency Medical Services Medicine since 1996. In 2013, the Fellowship was one of the initial programs in the country to receive full accreditation by the ACGME in the first year it was offered. The fellowship supports three Fellows yearly, with applications accepted on a rolling basis, but interviews are generally held in the Fall.

**Program Description**

Our University has the state's only Level One Trauma Center, only Pediatric Hospital, and largest Neonatal ICU. We serve a 600,000-person metro with helicopter EMS, Peds and Neonatal Critical Care, transporting more than 3,000 patients last year. We partner with a large third-party EMS system for urban ground response. We are a primary agency for the state's disaster planning and response. Fire and Tactical trainings through the State Fire Academy. Research and grant-writing strongly supported.

**PARTING WORDS**

Located in the state's largest metro, but serving a very rural state, our fellows care for a diverse group of patients with severe disease processes in challenging settings. Four separate HEMS bases cover the state and offer plenty of flight time. Our new EMS Physician vehicle will be ready for use by the 2023 fellows. The University offers a two year Master of Science in Clinical Investigation and we would consider supporting qualified candidates who wish to pursue this simultaneously.

Yes	2014	Yes	100

### Program Description

The UNC EMS Fellowship will provide a solid education in all aspects of both ground and aeromedical systems over a period of 12 months. The fellow will join the UNC faculty in medical direction for two very different EMS systems; an innovative EMS system in Orange County (urban/rural mix) which includes Chapel Hill, and a much larger EMS system in Wake County (urban/suburban) which includes the city of Raleigh. The fellows will also be involved in critical care transport through Carolina AirCare

## Fellow Details

## **PARTING WORDS**

UNC Department of Emergency Medicine is proud to offer an ACGME-accredited one year EMS Fellowship led by nationally renowned EMS faculty. The Fellowship goal is to provide promising EMS physicians with the opportunity to explore innovative systems management, prehospital research, and challenging educational objectives under the guidance of established EMS physician mentors in an academic setting.

### Program Description

Penn's EMS Fellowship that has been built from the ground up to train a new generation of EMS physician leaders.

Our program's fundamental goal is to provide a truly diverse one-year EMS educational experience. Leveraging the foundational support of University of Pennsylvania Health System, our program literally extends from the streets of Philadelphia to the farmlands of Lancaster County in a wide variety of EMS delivery systems.

**PARTING WORDS**

If you are not familiar with Pittsburgh, we welcome you to get to know this vibrant city. Pittsburgh is now a hub of innovation in healthcare, education, and technology. It is common for residents and fellows to come to Pittsburgh for a great training experience and find a new place to call home. The cost of living and crime rates are low, there are big city amenities, including world-class sports teams and the arts, and we are close to a variety of outdoor activities.

#### **Program Description**

Chattanooga is a medium sized city within a largely rural region, offering multiple types of EMS services for the fellow to experience. In addition, we have a strong air medical component. The fellow primarily interacts with Hamilton Co EMS, a third-service model EMS service with a mixture of urban and suburban response, as well as LIFE FORCE Air Medical Service, a hybrid hospital affiliated air medical service. Other services are available, as well as experiences in most niche areas.

### Program Description

Our accredited fellowship prepares emergency physicians in all aspects of pre-hospital and out-of-hospital care. Graduates leave the program with the knowledge and skillset required to function as an independent EMS physician. VCU Medical Center is a tertiary referral center providing comprehensive stroke and cardiac care and is Virginia's only Level 1 trauma center certified in adult, pediatric and burn care. Fellows can gain experience in community paramedicine, tactical and event medicine.

### Program Description

We have a very comprehensive program that offers a little of everything. Urban and rural ground EMS covering over 500 sq. mi. with a regional RSI program; in-house neo-peds interfacility transport team; a robust ground and air transport program. Mass Gathering stadium coverage at VT football games, Blue Ridge Marathon, and Iron Man in 2021. EMS education at the local EMS programs. We try to tailor the program to your interest. Last but not least, one of the prettiest areas to live and work in.
